

WELCOME TO THE WORLD OF CUSTOM CARD BACKS

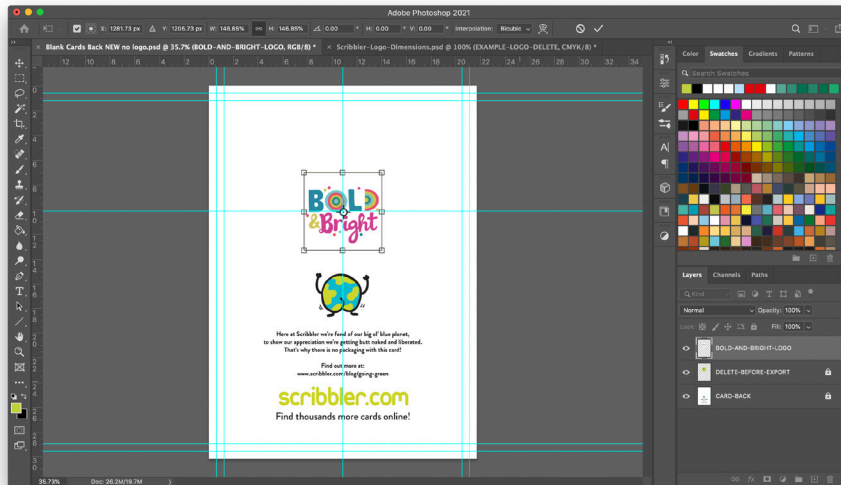

This Guide has been created for Photoshop however, you can follow these steps using Illustrator if that is your personal preference.

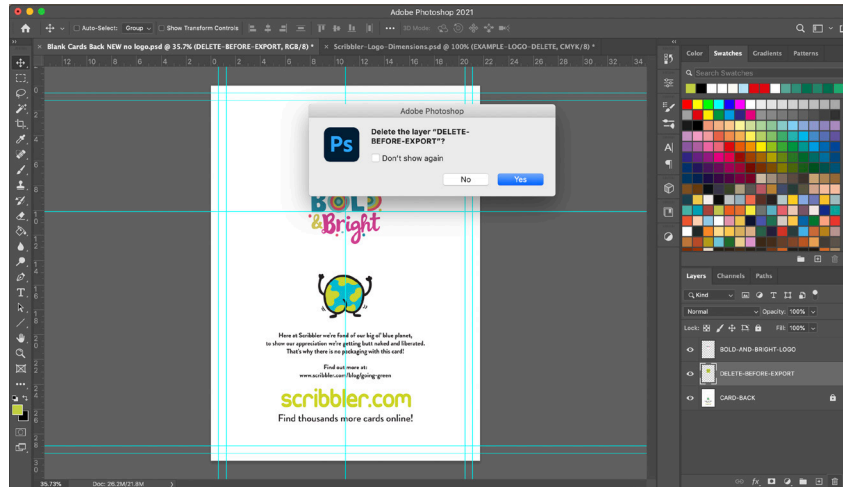

STEP 1

Place your logo into the Photoshop cutom card back template. Ensure your logo is 400px x 400px and 300dpi. If you need help with formatting, please use the logo template on the upload portal.

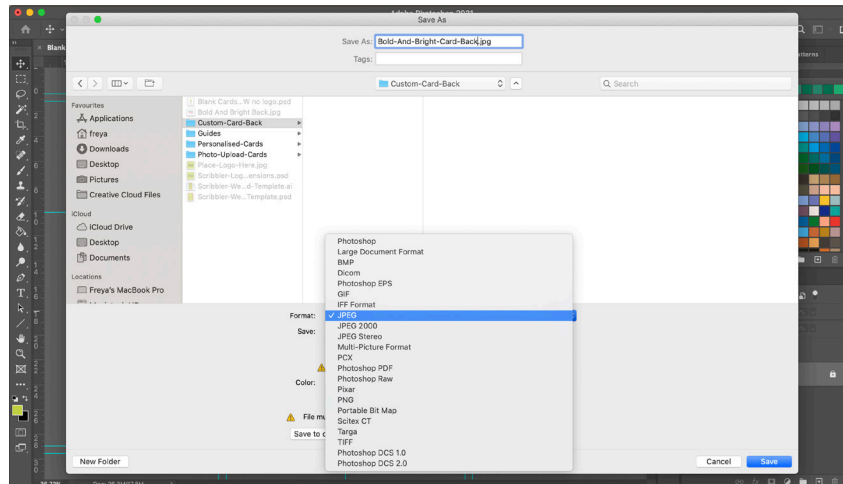

STEP 2

Use the Guide Layer to correctly position your logo, it must fit inside the green box. Please do not change or add any additional information to the back of the card.

STEP 3

Delete the Guide layer.

STEP 4

Save the file as a 300dpi JPG file. Please name your file 'Your-Brand-Name-Card-Back'. For example 'Bold-And-Bright-Card-Back'. Now you are ready to send your card back JPG and a copy of your Logo saved as 400px x 400px and 300dpi to us. Please email this to andrew@scribbler.co.uk
